

VO - chain

VO chain consists of welded sheet steel in fork-shaped links. The links are easy to assemble and disassemble using a pin and Allen bolt. The chain is fitted with welded-on scrapers made of folded material. Standard chain widths are 260, 360, 460, and 560 mm. Intermediate sizes are available.

VO - chain (sizes in mm)							
Pitch	A	B	C	D	E	F	Breaking load
150	25	8	9	40	16	8	110.000 N
150	25	8	9	50	25	8	130.000 N
150	33	16	17	50	25	8	170.000 N
